Registered architect experienced in sustainable and circular architecture. Proven track record in leading projects from conception to completion with a strong focus on stakeholder engagement and social impact

EDUCATION

MSc Architecture, Urbanism and Building Sciences,
Graduated with cum laude.
TU Delft, 2019 – 2021

*Graduation project selected runner-up NRP Masterprijs 2021
and shortlisted for Archiprix 2022*

BSc Bouwkunde, Honours Programme
TU Delft, 2016 – 2019

Dual major B.Sc. in Physics and Philosophy
Tel Aviv University, 2011 – 2014

EMPLOYMENT

Superuse Studios, Architect

Jul 2021–Present

Specialising in circular architecture through research, design, and reuse strategies. Recent responsibilities included:

- Led project from tender entry, through **design** and prototyping for a **ProRail modular facade**. Including quotations, planning and coordination of partners and advisors
- Developed a **material harvest** process within the **De Kaai** urban development, subsequently designing a fully **circular** pavilion built from on-site reclaimed materials. The resulting harvest map was shared with other architects to encourage **reuse of building materials**
- Conducted a **cost- and environmental impact** analysis for private homeowners, leading to a sustainable design for the renovation of a private residence
- Developed and facilitated **workshops** for diverse clients, such as Shell and Vorm, tailoring them to the organisations' sustainability goals

TU Delft aE, Research Tutor Graduation Studio
Feb 2025 – Present

Mentoring and supporting students during Master's graduation design studio. Expertise in resources-aware design, lifecycle, sustainable ambitions and community building

- Guidance throughout research plan, research paper, and integration with design proposal

Rotterdam Academie van Bouwkunst, Research Tutor Design Studio
Sep 2024 – Dec 2024

Formed design brief and structure for the studio **B(S)XL**. Stimulated circular economy principles as a departure point for urban development through material flow analysis

- Guidance throughout concept, research by design, and design strategies

Marketism, Online Marketing Campaign Manager
Jun 2013 – Nov 2015

- Campaign concept, content and performance optimisation
- Direct communication and working with clients
